

Tasking Memorandum No. CC-192

Memorandum For Commanders, Defense Contract Management Districts (DCMDs), DCMA CAOs

Subject: Performance-Based Service Acquisition Training (TASKING)

Date: APR 1 2 2000

Suspense Date: May 10, 2000

Target Audience: All Training Coordinators

The National Contract Management Association (NCMA) and the National Association of Purchasing Management (NAPM) have developed a web-based course titled, "Performance-Based Service Acquisition: Teaming for Performance-Based Results". This is the second year that NCMA and NAPM have jointly created a course for the Acquisition & Logistics Reform Week. Last year's course was titled, "Integrating Commercial Business Practices with Government Acquisition Processes". Six hundred forty-five DCMC people registered for the course in 1999.

Cost: The course is available at \$100/person.

Source: NAPM/NCMA website at <http://www.ncma-napm.org>.

Recommended students: Acquisition workforce members.

Course Description: The syllabus describes the course as an introduction to the concept of Performance-Based Acquisition and the actions that take place during the planning, development and execution of Performance-Based Management as it relates to service contracts.

Funding:

There is a special funding offer by ODUSD(AR). For every five people registered by DCMA for the course as of May 28 (up to 1,000), ODUSD (AR) will pay for one more registration.

To take advantage of this offer, District POCs must furnish the following information for each registrant to the HQ, DCMA POC by May 10, 2000: Student's name, phone #, e-mail address, organization, & last 4 digits of their SSN. If the student doesn't wish to use the last four digits of their SSN, they can make up a number – but they will have to know the number they used when they actually register for the course. Once the registration is recorded, the course can be taken at any time during the following year.

DCMA funding for this is included in the \$5,000 budgeted for each District to cover A&LR Week expenses.

Continuing Education Units (CEUs) = 24.

PLAS Guidance: Process Code = 217D, Program Code = NDCMA, Contract Kind Unit Cost Pool = 06, General Management Pool

Service Set: 12.0, Organization Support
